ECL Newsletter January 2017

Access to Medicines

ECL advocates for a comprehensive and fair access to medicine, for example by calling for greater transparency in the patenting system to ensure that medicines are affordable and available to all. For more information, visit the European Commission’s website: https://ec.europa.eu/health/medicines.

ECL Calls for Urban Donor Days

European Cancer Against Cancer

This year around the 2nd of April, European Cancer Against Cancer is hosting its 15th anniversary. To celebrate this milestone, they have set up a virtual roadshow showcasing the impact made over the years.

Short Deadline in March

We are happy to announce that we are accepting short papers for the 5th ECL Beach Colloquium, which is scheduled for April 2017. The deadline for submission is March 15, 2017.

Submission of papers is open to all researchers and practitioners in the field of cancer research.

The best papers will be selected for presentation.

European Conference on Tobacco or Health

The 10th European Conference on Tobacco or Health (Tobacco 2016) will be held on 11-13 June 2016 in Brussels, Belgium. The conference is open to researchers, policymakers, and practitioners in the field of tobacco control.

Sixth ECL Meeting

SITHM Young Professional Award

The SITHM Young Professional Award is open to all young professionals in the field of tobacco control. The award recognizes outstanding contributions to tobacco control research.

ECL President

The role of the President is to support the overall objectives of the Association.

Tobacco Free 2017

The ECL calls for a global effort to end the tobacco epidemic. The conference aims to bring together researchers, policymakers, and practitioners to discuss the latest developments in tobacco control.

Involvement in the ECL Newsletter

Involvement in the ECL Newsletter is open to all interested parties.

The effect of higher Tobacco Control Grade scores

An article on this topic will be available soon in the next edition of the ECL Newsletter.

ECL UPDATES

ECL Joint Scandinavian Brunch Meeting

ECL Christmas Meeting

ECL New Year Meeting

The Presidents’ network

The Presidents’ network is open to all interested parties.
European Conference on Tobacco or Health (SOTOH)

The 16th European Conference on Tobacco or Health (SOTOH) took place on March 20-23rd, in Malmo, Sweden, and was a great success.

EDThA Young Professional Award

To encourage young professional enthusiasts in the tobacco or health area, the European Conference on Tobacco or Health (SOTOH) awards a Young Professional Award (YPA) to the best abstracts submitted by students and young professionals. Young professionals are defined as those under 35 years of age. The abstracts are to be submitted at the time of the submission of the conference paper. The jury will select the best abstracts for presentation at the conference.

European Cancer Against Smoking

National governments in Europe will act on the recommendations of the European Cancer Against Smoking (EUCAS) in the near future.

Short Break in March

ECL applied for a short break from the ECL conference in March due to lack of funds. However, the ECL will continue with its regular programs in April.

HCC Informational Campaign

ECL encourages all tobacco or health professionals to take part in the HCC Informational Campaign. The campaign will be launched soon.

European Cancer Against Smoking (EUCAS)

The European Cancer Against Smoking (EUCAS) will be launching soon, and we encourage all tobacco or health professionals to take part in the campaign.

CanCer Newsletter

You will find CanCer in the latest Newsletter here.

CanCer Newsletter

You will find CanCer in the latest Newsletter here.

Focus: Health Research in a Contextualized and Participatory Society

The European Conference on Tobacco or Health (ECL) is a platform for health professionals, researchers, and policymakers to discuss the latest developments in the field of tobacco or health. The conference also provides a forum for networking and the exchange of ideas among professionals.

The Effect of Tobacco Control Measures in Schools

What has been the effect of Tobacco Control Measures in Schools?

In this section, we will discuss the impact of Tobacco Control Measures in Schools on reducing smoking rates among children in the European Union. We will also examine the role of schools in promoting healthy lifestyles and reducing the prevalence of tobacco use among children.

MILAN ECL next big goal: a great Advocacy Officer

The ECL newsletter has become the go-to resource for tobacco or health professionals and policymakers. The newsletter provides news, updates, and information on the latest developments in the field.

The ECL newsletter is a valuable resource for professionals and policymakers in the tobacco or health field. The newsletter provides news, updates, and information on the latest developments in the field.
ECL Newsletter April 2017

ECL: a work experience for Trainees

As an ex-MNO, ECL is always looking for future talents to keep this kind of work. We currently have three interns who will stay for seven months with us:

Marcel Ubeda, from Spain. He is part of the ECL Youth Ambassadors group and he is working hard on the European Week against Cancer (May 2017).

Jerger de Doncker, from Belgium. He is helping as well France.

Max Koenig, from France. Max has some experience in working at the European Parliament and is useful for his policy and advocacy skills.

Welcome to our new interns!

The European Solidarity Corps

The European Solidarity Corps is the new European Union Initiative which creates opportunities for young people to volunteer or work in projects in their own country or abroad that benefit communities and people around Europe.

Read more here

The ECL Lagrene are interested in this task and consider doing on the initiative to locally young volunteers and internships at their organizations.

European Code Against Cancer

2017 sees the 10th anniversary of the European Code Against Cancer. To mark this, the commemoration of this special birthday, a special article has been published in Frankie by former European Commissioner official Michel Rückerl (formerly of the Cancer Against Cancer programme and the European Council) and the European Solidarity Corps.

LUC BLY, know what you plan to do for the landmark birthday of the BEACO?

Read the article here

Healthy habits and timely screenings: best bets in cancer prevention

The European Code Against Cancer, a call for recommendations to provide sound advice on cancer prevention, celebrates its 10th anniversary this year. Working toward the Association of European Cancer Lagrene (ECL), a participatory umbrella organisation of national and regional cancer leagues, seeks to promote progress made in the fight against cancer.

ECL Newsletter June 2017

NEW ECL PROJECT - PROJECT OFFICER

Anna Poppenga joined from Progea di Costa Republica, where she held the position of Assistant Project Manager, as ECL’s Project Officer from 1st March.

The official kick-off of the project was held during last week’s meeting in Brussels. The project team, led by Anna, has started to work on the final delivery of the strategic framework document, presenting background information and presenting the research findings on the current situation and needs in relation to the feasibility of offshore wind energy.

ECL Newsletter April 2017

CME against Cancer

ECL’s new weapon: Chimeric Antigen Receptor T-Cell Therapy (CAR-T)

At the beginning of this year, the European Commission, CME and the ECL launched its CAR-T project, an educational initiative to bring together partners from across the EU to develop a common approach to support the implementation of CAR-T therapy.

The project will see CAR-T therapies used in clinical trials in Europe and may well lead to the future approval of CAR-T therapies in the EU.

The goal of the project is to support regulatory bodies such as the European Medicines Agency (EMA) and national authorities across Europe to make CAR-T therapies available in the EU.

The project will be led by ECL, with the support of the European Commission, EMA and national authorities across Europe.

ECL welcomes the opportunity to work on this project to support CAR-T therapy and the development of CAR-T therapies in Europe.

ECL Newsletter April 2017

ECL receives €1.8m grant to develop new drug delivery technologies

ECL has received a €1.8m (US$2m) grant from the European Commission to develop new drug delivery technologies.

The project, called ECL-DRUGS, will run for three years and will focus on the development of new drug delivery technologies that can improve the efficacy and safety of existing drugs.

The grant will be used to develop new drug delivery technologies that can improve the efficacy and safety of existing drugs.

ECL Newsletter April 2017

Clandestine tech or tobacco electronic cigarettes in the EU

The European Commission has announced that it will adopt a new regulation on tobacco e-cigarettes in the EU.

The new regulations will be adopted by the EU Commission and will be published in the Official Journal of the European Union.

The new regulations will come into force on 1st July 2018.

---

**CAM-1 Cell Transplant Retraction**

This is a posthumous retraction of the paper "A new approach for the prevention of cell transplant in vivo" by J. L. van Tienhoven et al. published in 2017. The retraction, contributed by ECL, is a significant correction to the scientific literature, highlighting the importance of rigorous peer review and the correction of errors.

---

**WHO against Cancer**

The WHO has released a "Wines against Cancer" report, which highlights the potential health benefits of moderate wine consumption. The report suggests that wine contains anti-inflammatory and antioxidant compounds that may reduce the risk of certain cancers. However, the report also cautions that excessive alcohol consumption can increase the risk of cancer.

---

**Spring Meeting in Florence**

The ECL is holding a Spring Meeting in Florence, Italy, on May 12th, 2018. The meeting will feature discussions on the latest developments in cancer research, including the role of chemotherapy and immunotherapy. Attendees will have the opportunity to network with other professionals in the field.

---

**ECL Summer School**

The ECL Summer School will be held in July 2018, providing a comprehensive overview of the latest research and developments in cancer treatment. The program includes interactive workshops, lectures, and hands-on laboratory sessions.
